June Newsletter

Oak Class had a wonderful evening during Cinema Night, where they enjoyed watching *Toy Story 4* together. The atmosphere was cosy and fun, with plenty of popcorn to munch on, refreshing drinks to sip, and lots of laughter shared among friends. It was the perfect way to relax, unwind, and enjoy some quality time in great company! 🎬

In phonics we are getting fantastic at making words using our special friends. Can you think of a word that has the special friend 'ee' in it?

During Art, we've been busy exploring our creativity by making beautiful transition-themed artwork using natural materials. Inspired by the textures and colours of the outdoors, we included items you might find at the beach—such as shells, pebbles, sand, and driftwood—to bring our artistic visions to life. It's been a fun and hands-on way to connect with nature while expressing ourselves!

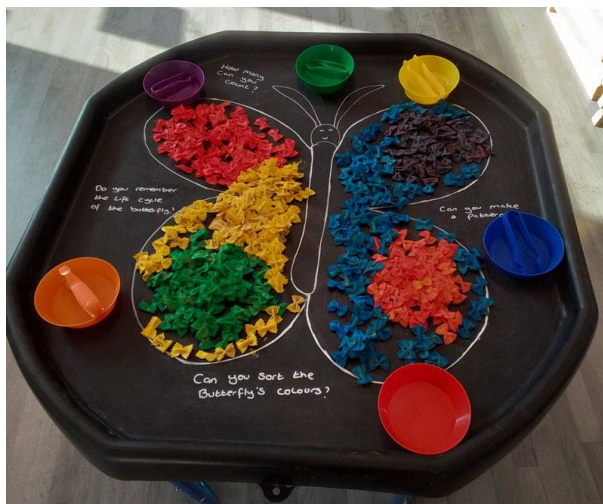

We've been absolutely loving our cosy beach home corner! Dressed in our coolest sunglasses, we've been digging and shaping the sand, letting our imaginations run wild with endless sandy creations. After all that fun, we've been kicking back and relaxing on our sunbeds, feeling like we're soaking up the warm sunshine and gentle sea breeze—even indoors!

We had the best time on our beach trip! From discovering and describing unique shells to building fantastic sandcastles, every moment was filled with fun and curiosity. We loved feeling the waves with our hands and legs as they gently rolled in. It was a beautiful day full of sunshine, laughter, and seaside adventures!

The Robin and Wren Room Children @ Chestnut Nursery School Greatfields current book of the moment is The Very Hungry Caterpillar. The Children have been learning about the story through different activities, they have done caterpillar print paintings, butterfly paintings, messy and sensory activities to explore textures. The children even took part in food tasting, remembering what the caterpillar ate through the story. We have also been learning about the life cycle of a caterpillar, this has been brought to life with our own caterpillars, watching them grow!

The Jay Room (3 Months - 2 years) Children @ Chestnut Nursery School Greatfields current book of the moment is Peek-a Who? This book has really supported the children to settle into nursery, as they love playing Peek-a boo, getting to know their new peers and Key people. The Story has been brought to life through a range of activities, such as messy play, sensory play, rhymes and songs.
